

A 50 year old manufacturer of components for robotics and automation located in Hamel has current openings for CNC Lathe and Mill Machinists. This company is proud of its solid history of integrity, product innovation and its ability to provide the best service in the industry and is looking for candidates with similar vision. These positions are temp-to-hire and require previous experience with CNC machinery. The qualified candidate will also have set-up experience with CNC lathes or mills.

These positions are open on 2nd shift. The hours would be 3:00 pm-11:30pm. Starting pay is based on qualifications

#### Required Skills:

- \*Ability to set-up CNC lathes or mills
- \*Ability to read blueprints
- \*Experience with Geometric Tolerancing
- \*Capable of performing shop math (including trigonometry)
- \*Ability to inspect parts

Experience with the following type of equipment would be a plus, but not a requirement of the positions:

- \*\*Twin spindle, twin turret, Y axis, live tooling, Fanuc control, Daewoo, TT1800 lathe
- \*\*Single spindle, Y axis, live tooling, Fanuc control, Daewoo, Puma 2000Y lathe
- \*\*Single spindle, Y axis, live tooling, Mazak Lathe
