An Equal Opportunity Employer

Exciting Career Opportunity

The Dotson Company is a national leader in the foundry industry with more than 130 years of experience. Our success is based on strong core values, employee involvement, lean processing, continual recapitalization and commitment to exceed customer's expectations. Because of our outstanding performance in the supply of castings, our customers are excited about our decision to add on-site machining to our foundry operation.

The candidate we are seeking will design, select equipment, staff and manage this machining operation that will have 200 plus part numbers and \$3,000,000 annual sales by 2011.

We are looking for someone who has great people skills, is a good decision maker, is continual improvement focused and has worked with lean principles. A strong candidate will have:

- Degree in Manufacturing Engineering or equivalent experience in machining design and processes
- 5 years of experience in machining operations with in depth knowledge of machining process, work holding, process control, CNC technology, CAD/CAM software and quoting
- Strong leadership, communication, organization, and computer skills.
- Experience managing people and a strong appreciation and understanding of lean
