

**HEGMAN MACHINE TOOL, INC.**  
Partnership, Profitability, Performance.

**Field Service Technician – Lake City, MN**  
Experienced or Apprentice

Due to growth, Hegman Machine Tool has an immediate opening for a Field Service Technician to work on CNC Machines in the Lake City, MN area. Hegman Machine Tool is a great Company to work for where we have a positive atmosphere and motivated co-workers who really care about our customers and each other. We have been in business over 26 years and are experiencing rapid growth.

Responsibilities include installation, set-up, troubleshooting and repairing of production CNC machines. Knowledge of electronics, pneumatics, hydraulics, and mechanics is necessary. Machine shop experience, CNC knowledge, some training or education in the field and two plus years experience preferred, but we are really looking for that person who has the aptitude and attitude to provide great service, so we are willing to train the right person.

This position requires the ability to work independently after training and orientation. You will work primarily in the Lake City area with some occasional travel. HMT offers excellent comp and benefits including profit sharing, a generous 401k and health. Salary will depend upon experience.

For consideration and more information on this or other openings we may have, mail or email your resume to:
