

# IMTS 2010

CONNECTING GLOBAL TECHNOLOGY

## WHAT WILL IT SPARK IN YOU?

You could just see the light  
bulb go on inside their heads!

- Steve Glasder, CNC Machine Tool Instructor at East  
Leyden High School in Franklin Park, IL

Few field trips validate  
classroom learning like IMTS!

- Steve Skorup, Department Chair for Applied Technology  
at Waubesa Valley High School in Aurora, IL

INTERNATIONAL MANUFACTURING TECHNOLOGY SHOW  
September 13 - 18, 2010 • McCormick Place • Chicago

# inspiration

Interface with industry. Experience the future of manufacturing.

[www.IMTS.com/Student](http://www.IMTS.com/Student)

The NIMS Student Summit at IMTS 2010 focuses on **career development** and provides a unique venue for students to **interface with industry** representatives. Our goal is to reach out and enlighten students through contact with industry professionals and state-of-the-art manufacturing technology.

The **CAREER DEVELOPMENT CENTER (CDC)** offers engaging and educational exhibits specifically designed with students and educators in mind. Expect exciting, hands-on opportunities from familiar names like Caterpillar and Sandvik. Through the CDC, NIMS aims to increase awareness of career opportunities, correct misconceptions surrounding manufacturing careers and drive excitement for recruitment of the nation's brightest, young talent to the industry.

Many educators use the Student Summit experience as a research lab. For example, small teams of students are assigned to research and prepare a report on the latest technology in each of the IMTS Pavilions. Several instructors make use of the opportunity to have in-depth discussions and debates following their visit to IMTS.

**STUDENT FRIENDLY EXHIBITORS** are companies that support the Student Summit experience. In these booths, particular staff members are designated to speak with visiting students and educators. Use this chance to engage your students with potential future employers.
